Soluble Pacific Guano.

200 LBS. SOLUBLE PACIFIC GUANO contains 70 lbs. *animal matter*, yielding 7 to 8 lbs. *ammonia.*

Also 80 to 90 lbs. *earthy bone Phosphate of lime*, 30 lbs. of which are *soluble phosphate.*

It combines all the advantages of the *best brands* of Super Phosphate, with those of Peruvian Guano.

By reason of its greater *concentration*, we recommend 20 per ct. less by weight to be used per acre, than of any fertilizer costing the same per ton; and no more per acre than of those selling at 20 per ct. more per ton.—Hence *its economy.*

This guano weighs 65 lbs. per bushel, hence in applying it farmers must be governed by weight and not by bulk, for it is much lighter than the Super Phosphates. *Every cargo duly inspected.*

"Flour of Bone."

WE will give a *money* guarantee of the *purity* of this article. It is pure *unsteamed, unburnt bone*, reduced to the *fineness* of *flour*, which adds 100 per ct. to its value. It is as *quick* and *active* as acid *dissolved bone*, hence its value is vastly greater, because it contains neither acid nor water, which necessarily add weight, and reduce the quantity of valuable elements. We recommend 250 lbs. to be used in place of 300 lbs. Super Phosphate or dissolved bone.

Selected Poetry.

WHY DON'T YOU TAKE A PAPER?

He was a model husband,
So generous and kind;
One like good natured Alfred Gray
'Mongst men 'twas hard to find.
He had a household, hale and strong,
But dim was wisdom's taper;
Because the evening glided by
Without a weekly paper.

But woman's eye is quick to see,
As Mrs. Gray was shrewd;
And though he was quite a man,
Yet sometimes he was rude:
And when they went, last Friday night,
To call on Mrs. Draper,
She said her husband was a goose,
And doesn't take a paper.

Good natured Alfred when accused
Of this before them all,
Looked calmly round and softly said,
My income is too small;
I always wear a bonnet less,
Said gentle Mrs. Draper,
Throughout the year, to give my dear
That good COMPILER paper.

How would we know produce was up,
Or shoes or dry goods down;
The name of our new President,
And where his native town.
Nor would we know young Andrew Brown
Had wed the rich Miss Luyper,
With ninety thousand, all in cash,
If 'twas not for the paper.

This I have done, said Mrs. Gray,
For bonnetless am I—
I wear a hood of dingy silk,
Yet nothing have laid by,
My Alfred says 'tis very well
For every idle gaper,
Who has the cash and time to waste,
To buy and read the paper.

My Jane is twenty-six to-day,
And yet she don't get married;
Economy has been our rule,
Yet still at home she's tarried;
And Alfred has three dollars now
Saved up to buy a scraper;
I wish that he would change his mind
And take a weekly paper.

The question was then put to vote
To know which was most meet,
Get something new to clear the mind,
Or shoes upon the feet;
The good wives clapped their hands with joy,
The children cut a caper,
The vote at once was twelve to one,
And so he took the paper.

There is an edifice up town,
In upper-tendom street,
There's Alfred Gray Esq's home,
The rich and poor to greet.
He rose quite soon from obscure life,
Soon left its murky vapor,
For affluence and usefulness,
Because he took the paper.

Dear reader, in a fretful home,
If you from day to day
Are hobbling awkwardly along,
As once did Alfred Gray;
If trials hard you have to bear,
Although you bear them meekly,
If you'd outlive them and be rich,
Then read the COMPILER weekly.

MANURES.

MR. EDITOR—By your permission, I will present a few thoughts and suggestions to the rural readers of the COMPILER on a subject of vast importance to them.

The means at our command for increasing and maintaining the productive powers of soils are numerous. Experience has in every age taught the necessity of supplying to the soil those substances which are essential to its fertility.

Lime, as is well known, is the most active and efficient fertilizing agent with which we are acquainted, and the judicious farmer will not fail to apply it to his impoverished and exhausted lands whenever he can raise the money wherewith to pay for it. Indeed, if it is ever expedient to incur debt it is in buying fertilizers.

But there are other means which may be employed for this purpose which are not attended with any expense, and which are within the reach of all.

All substances which, when mixed with the matter of the soil, tend to fertilize it, are, in common language, termed manures; as for example, the contents of stables and barn yards, marl, ashes, salt, lime, compost, and every description of animal and vegetable substances. It is the uniform experience of all farmers and gardeners in all parts of the world that barn-yard manure, that is, that which comes from the stable, the cow-house, the sheep fold, the pig sty and other similar sources, is in the whole, the most valuable, because it is the most universal in its beneficial effects, of all known manures. Other manures, such as the phosphates, guano, bone dust, gypsum, &c., are very valuable for particular purposes. This is useful for all. This, almost the only agent we know of which is adapted to all kinds of soils, and which keeps up the fertility of all kinds of land.

The farmer's main reliance must be upon this kind of manure. "Nature has ordained that he shall humbly wait upon the dissolution of organic matter, and especially that he shall convert the disgusting excrement of animals into forms of beauty and utility. His success in his calling makes him the ever watchful sentinel upon putrefaction." Here is the mine in which is to be found his principal wealth; and the day is not far distant when he will avail himself of all the refuse animal and vegetable matter that is now suffered to go to waste, by its decomposition to poison the atmosphere and thereby engender disease.

The barn-yard should be the receptacle for everything of the animal and vegetable kind possessing fertilizing properties. For substances found in small quantity this is doubtless the best place. Of this class may be named the offals of slaughter houses, consisting of blood, hair and filth of every description. So are the shavings and chips of the repair shop and the wood-pile. So are the woolen rags, bones, feathers, old hats, old shoes and boots, fragments of leather, and the sweepings of cellars, yards and streets. So also all muck, leaves, and decaying and rotten vegetable matter that may be collected in woods and along fence-rows and water-courses.

Whatever of the above is to be obtained, should be collected and with other waste substances carried to the barn-yard and converted into manure.

The quantity of either may appear small, and scarcely worth attention; but it will be found that the aggregate in a year will swell the manure heap to double or treble its usual size. It is by attending to such small things that the farmer, as well as the man of business, becomes prosperous. S.

PASTURAGE OF COWS.

It is well known that Cheshire, England, is a great dairy county. This lies not far from Liverpool. Chester, the market town, is, perhaps, a dozen or fifteen miles from that city. Most of the land has been underdrained and top-dressed with ground bones, and such land will carry one cow to the acre. Where it has not been top-dressed and drained a cow will require two acres. They use 1,200 to 1,500 weight of bones to the acre about once in seven years. How many acres does it take to keep a cow well in this country? Would it not pay to bring up our pastures?—*Mass. Plowman.*

HOW TO MAKE CURRANT WINE.

The abundant crop of currants now ripening throughout the country will enable almost every one to provide a supply of wine and other delicacies that are so easily manufactured from this fruit. We find in a recent issue of the *Germantown Telegraph* a receipt for making wine from currants, prepared by the experienced editor of that paper, which is simple and reliable. First crush the currants effectually, then place them in a strong bag, and press the juice out, by whatever means will effect it best; then, to each quart of juice add three pounds of double-refined sugar, and as much water as will make one gallon. Good brown sugar will answer, but not so well in retaining the fine flavor of the wine, though it will give it more body. To make a ten gallon keg of wine, it will require ten quarts of currant juice, and thirty pounds of sugar, filled up with water. Be sure that the sugar is well dissolved, by rolling over or shaking the cask; but we prefer mixing all together before putting in the cask, in an open vessel, in which it should remain forty eight hours, and frequently skimmed. Fermentation will begin in two or three weeks. After it has *entirely* ceased fermenting, rack off carefully, then scald the barrel, return the wine to the cask, tightly bung up, and leave undisturbed for six months before using, when if preferred, it can be bottled. It requires no clearing substance or spiritous liquor of any kind; and it is much better without either. The keg, cask, or whatever vessel it may be in, *should be full*, and as fermentation is going on, and the extraneous substances thrown out of the bung, the vessel should be kept full by adding sufficient pure juice kept in reserve.

GAMING LAW.—We have not yet received a copy of the acts passed by the Legislature at its recent session, but find in several of our exchanges the following section of a law, said to have been passed by that body:

SECTION 2. That from and after the passage of this act, no person shall shoot, kill or otherwise destroy any pheasant between the first day of January and the first day of September, or any squirrel between the first day of January and the fifteenth day of August, or any woodcock between the first day of January and the fourth day of July, or any partridge or rabbit between the first day of January and the first day of November, in the present year, and in each and every year thereafter, under the penalty of five dollars for each and every offence.

Choice Miscellany.

A Happy Nigger.—A negro sat on the curbstone bare, the light of his grinders showed freedom from care; his hat was brimless and full of air-holes, his shoes nearly minus vamps, quarters and soles, while his coat, pants and vest into fragments were blown, and excepting the collar, his shirt was all gone. To any one passing, 'twas easy to see, this darkey was happy, as happy could be; although wanting food, he seemed not to feel it, but patiently waited a good chance to steal it. No master to hector him now, like a Turk, or mistress to hurry him up to his work; no handling of plow, hoe, shovel, or spade, and nothing to do but sit back in the shade—and starve to death.

A Clincher.—An old lady once triumphantly pointed to the "Epistle to the *Romans*," and asked where one could be found addressing the *Protestants?* This was equalled by an old negro Baptist at the South, who said to his master (a Methodist): "You've read the Bible, Is'pose?" "Yes." "Well, you never saw nothing about John the Methodist, did you?"—"No." "Well, den, you see dere's Baptists in de Bible, but dere ain't no Methodists, and de Bible's on my side."

Plowing in Iowa.—A friend, just returned from Iowa, says they have such huge long-nosed hogs in a portion of that State, that the settlers employ them to plow the fields. He says they bury a corn cob at one side of the field and place the hog at the other side. The porker immediately digs his snout into the rich soil and turns a furrow, equal to that of the best plough, right up to the cob. Some settlers aver that if a stump should be in the way of the furrow, the hog splits it with his snout.

☞"Now, girls," said Mrs. Partington, the other day, to her nieces, "you must get husbands as soon as possible or they'll be murdered."

"Why so, aunt?"

"Why, I see by the papers that we've got almost fifteen thousand Post offices, and nearly all on 'em dispatches a mail every day. The Lord have mercy on us poor widows," and the old lady stepped quietly to the looking-glass to put on her new cap.

☞The friends of a celebrated wit expressed some surprise that at his age, and with his fondness for the bottle, he should have thought it necessary to marry. "A wife was necessary," he said. "My acquaintances began to say I drank too much for a single man."

☞It is considered important enough to publish in Paris that the Empress of the French wears spurs when riding. Her horse is trained to their use.

THE NEW TRICK TO FORCE NEGRO SUFFRAGE UPON THE PEOPLE OF THE UNITED STATES.

The Disunion Congressional Directory have at last agreed upon their plan of "reconstruction." It consists of an amendment to the Federal Constitution the principal object of which is to establish Negro Suffrage. Let us examine it for a moment. Section first declares that

"All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the State wherein they reside. *No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States, nor shall any State deprive any person of life, liberty, or property, without due process of law, or deny to any person within its jurisdiction the equal protection of the laws.*"

Observe; "*all* persons born or naturalized in the United States," are made "*citizens* of the United States and *of the State* wherein they reside." Certainly and indisputably this means that Negroes, Mulattoes, and every body else (*all persons*) shall be citizens. Now, the leading Disunionists in Congress argue that citizenship embraces every right that can be enjoyed under our form of Government. They tell us that one citizen is as good as another, and, therefore, that a white citizen can have no privileges which do not equally attach to the black. Thus they intend to compel the people to accept Negro Suffrage. First, by this amendment to the Constitution, they propose to make "*all* persons," including Negroes, citizens. Next, the Negro being a citizen, they will demand for him the same rights as are exercised by other citizens.—Should any State attempt to interfere against their scheme by legislation, they will say, "You dare not deny to any person within your jurisdiction the equal protection of the laws." To carry out their programme, should they have a majority in Congress, they will pass such laws as will suit their purposes. In order to enable them to do this they have added a section to the amendment under consideration, which reads as follows:

"Section 5. That Congress shall have power to enforce, by appropriate legislation, the provisions of this article."

Again, Section second declares that whenever the right to vote is denied to any of the male inhabitants of a State, being twenty-one years of age and citizens of the United States, the basis of representation shall be reduced in proportion to the number of such male inhabitants excluded from the right of suffrage. For instance, Pennsylvania has a Negro population sufficient to give her one member of Congress. Had not the Negro inhabitants been counted in the last apportionment, Pennsylvania would have had but twenty three instead of twenty four members of Congress. Now, if this amendment be adopted, Pennsylvania must either give the Negroes the right to vote, or lose one member of Congress.—This rule would operate still more severely upon the Southern States. They would be compelled to lose one third, at least, of their present representation in Congress, if they declined to confer the right of suffrage upon their Negroes. On the other hand, if they choose to give the Negroes the right to vote, they would gain largely in representation, as but three-fifths of the slaves were counted in the last Congressional apportionment.—Hence, this section of the Amendment compels, on the one hand, and bribes, on the other. Its whole purpose is to induce the States, North and South, *to give the Negroes the right of Suffrage.* This, even "he who runs may read."

Such, then, is the plan of "reconstruction" presented by the Stevens and Sumner Disunionists of the so-called "Republican" party. In the language of the Bedford *Gazette*, it is NEGRO SUFFRAGE, or it is nothing. The people must choose between it and the unconditional Union policy of President Johnson, advocated and supported by the Democratic party.

THE TRUE ISSUE.

The Springfield *Republican*, one of the most independent Radical newspapers in the country, is determined to hold the majority in Congress to their appointed work of setting the negro on a level with the white man, and will not suffer them to avoid that issue, or confuse it, or deny that it is really before the people. We take a few paragraphs from its columns on this subject, which are honest, out-spoken, and to the point:

"The suffrage question is not to be got rid of. It must be a leading question in our politics until it is settled, spite of all efforts of the politicians to shove it aside or dodge it. The Congressional reconstruction scheme ignores it, and for this reason, if for no other, that scheme cannot bring final settlement. *Indeed, it is framed chiefly and confessedly for use in the fall elections, and especially to enable certain shaky Congressmen to dodge the suffrage question.* We doubt whether they will get even this temporary advantage from it, for *it is impossible to make the people believe that the suffrage question has disappeared from the political arena, or that it is not really involved in the elections.* The Democrats will be certain to keep it alive, for they consider white suffrage their strong point, and *rely upon the prejudices of ignorant or negro-hating whites for votes in support of a 'white man's government.'*"

There are other "prejudices" on which the Democrats rely, such, for instance, as the "prejudice" of the people in favor of the Constitution as our fathers made it—in favor of free speech and a free press, and immunity from arbitrary arrest, and the popular hankering after the writ of *habeas corpus*, trial by jury, and other antiquated follies. But this is by the way. The *Republican* frankly admits that it will be as vain and ruinous as unjust to attempt to fasten negro suffrage on the South if the Northern States refuse to give votes to the blacks within their own borders. Its words on this point are truthful, significant and, we take it, prophetic of what will actually come of the dishonest and selfish policy which governs the Radicals in and out of Congress:

"Certainly if the free States are not ready for so much of this, it is useless to talk of imposing any condition of restoration upon the South. *The only thing to be looked for, if such is really the state of public opinion, is the defeat of the Republicans and the restoration of the Union by the Democracy.*"

OLD MONTGOMERY ALL RIGHT.

"The Boys in Blue"—They Disown the Disunion Candidate and Pledge Themselves for the "Union and Clymer."

At a large and enthusiastic meeting of the "Soldiers' Union and Clymer Club of Norristown," held on Tuesday evening, June 27th, the following preamble and resolutions were offered by A. M. Derr, of the 68th regiment P. V. V., and unanimously adopted:

WHEREAS, At the call of Gen. Hartranft, a body of men met at Pittsburg who styled themselves "The Soldiers' State Convention," and professed to speak the sentiments of the soldiers of Pennsylvania, yet disregarded the true interests of the country and the soldier, and endorsed the radical measures of the Disunionists in Congress, and the nomination of John W. Geary for Governor; *And whereas*, We deem it expedient to declare more plainly and explicitly our sentiments in regard to these important matters; therefore,

Resolved, That the Pittsburg Convention has no authority to speak in the name of the soldiers of Pennsylvania, and we believe they grossly misrepresented the sentiments of a majority.

Resolved, That said Convention was a shallow device of demagogues, which could only deceive the most unwary—a knavish trick—and shows the lamentable fact that some soldiers have become like those whose company they kept, thus proving the truth of the proverb: "Evil communications corrupt good manners."

Resolved, That the country having no longer any need of our services, and having been honorably discharged, we have returned to civil life and resumed those rights of American freemen, which we had, for the time being, for our country's sake, voluntarily laid aside, and we cannot be cajoled, or driven, into sacrificing them to further the ambitious schemes of unprincipled demagogues, or the wicked designs of fanatics; but shall endeavor to hand them down unimpaired as we received them from our fathers.

Resolved, That, once more invested with the dignity of American freemen, we bow to no man nor submit to the dictation of any one, though his shoulders may have born the eagle or the stars.

Resolved, That we shall oppose to the utmost the candidate of disunionism, radicalism and negro equality, the tricky politician, John W. Geary.

Resolved, That we will do our utmost to secure the election of the Union candidate, Hiester Clymer, who has at least the *qualities* of a true soldier—candor, sincerity and uprightness.

WHAT IS LOYALTY?

The following eloquent extract is from the speech of Hon. Edgar Cowan, in the United States Senate, June 6th, 1866, on the miscalled Reconstruction propositions which have since passed Congress:

Suppose you pass this amendment to the Constitution, and suppose the Southern States either for the purpose of getting themselves into line with you or for the purpose of increasing their political power under it, should admit the negro to the franchise, will your children and your homes and your government be the more secure for that? What is the difficulty under which you labor to-day? Is it that you have not voters enough? Is it that the food upon which the demagogue fattens has grown scarce and he has grown thin? Or is it the reverse? Is it not because demagogism is rife everywhere; and is not demagogism rife just in proportion as you furnish it the material upon which to work? Degrade your franchise, put it down in the hands of men who have no intelligence, no virtue, and, what is worst of all, no independence—put it into the hands of men who have nothing to hope from it except in so far as they can use it for corrupt purposes, and shall we be safer then, I ask? Do you suppose that the people of the States in which there are negroes will send you more intelligent, more learned, more virtuous, and more independent Senators and Representatives here if you make this change than they would without?

Mr. WILSON. They will send more loyal men.

Mr. COWAN. "Loyal." What is "loyal?" I ask Massachusetts what is "loyal?" What is the meaning of the word? A fellow that votes with you! That is like the chap defining "orthodox"—"orthodox is the way I believe; heterodox is the way the other man believes." "Loyal" means an abolitionist, I suppose. At least I find that everybody who does not happen to be an abolitionist or tarred with that stick, is said to be disloyal.—Loyalty, Mr. President, is a very simple word. Loyalty means obedience to the laws. It means legality. *Legalis* means law as well as *lex* meant it. When a man alleges his loyalty to me, let me see his reverence for the Constitution and the laws. Show me a man who disregards either; show me a man who does not believe in the Constitution which brought this country to such a pitch of prosperity for seventy-five years and made us so great and so happy a people; show me a man that lays sacrilegious hands upon that instrument, especially when I know that half the time he does not understand it and that he never read a commentary upon it in his life; show me that man, and I show you one who is not loyal. Show me a man who for temporary advantage, either for himself or his party, would set a foot upon one of his country's laws, and he is not loyal.

It is time we were beginning to understand the meaning of words in this country. It is time, now that the war is over, when passion has subsided and when reason ought to come back and resume her throne, that we ourselves should be reasonable. Let us look at this in the light of the past; let us look at it calmly and coolly as we survey it in bygone thousands of years, not as it looks to the eye blood-shot with passion, red with rage that is hardly dying out. Let the lower stock indulge in passion if it is to be indulged in; but here in this the highest forum of the nation; here

GETTYSBURG, PA.:
Monday Morning, July 9, 1866.

FOR GOVERNOR,

HON. HIESTER CLYMER,

OF BERKS COUNTY.

Democratic County Convention.

At a meeting of the Democratic County Committee, at Wolf's Hotel, in Gettysburg, on Saturday last, the following resolution was unanimously adopted:

Resolved, That the Democratic voters of Adams county be, and they are hereby, requested to meet at their usual places of holding Delegate Elections, on SATURDAY, the 28th day of JULY instant, for the purpose of choosing Delegates to represent them in a County Convention to be held in Gettysburg, on MONDAY following, (July 30th,) at 10 o'clock, A. M., to nominate a County Ticket, appoint Congressional Conferees, and transact such other business as may be deemed necessary. The Delegate Elections to open at 5 and close at 7 o'clock, P. M., in all the Districts except in Gettysburg—in the latter place to open at 7 and close at 9 o'clock, P. M.

☞The Delegate Election in Union township to be held this year at Sell's Station.

JACOB BRINKERHOFF, Ch'n.
H. J. MYERS, Sec'y.
July 2, 1866.

THE MASS CONVENTION.

The Reading papers say that the Democratic Mass Convention to be held in that city, on Wednesday, the 18th instant, promises to be one of the largest political demonstrations ever had in Pennsylvania. All parts of the State are expected to be well represented, whilst the central and eastern counties will turn out in mass. The railroads will arrange to carry everybody comfortably and cheaply, whilst the hotel accommodations will be enlarged to their utmost capacity. Every effort will be made to render Reading equal to the great occasion, and it is not doubted that those efforts will be entirely successful.

We know that our farmers will still be busy about that time, but yet hope that Adams will be represented by a goodly number of her Democratic citizens at this great gathering of the *white* people of the old Keystone. Let us go there and assist at the inauguration of a campaign which shall be so vigorous and enthusiastic as to sweep everything before it. The place has been appropriately chosen, and the time none too early for the great work on hand—the redemption of this tax-ridden Commonwealth from fanaticism and corruption.

☞The *Sentinel* cannot relieve the Republican party from the charge of favoring NEGRO SUFFRAGE, by trying to hand Wendell Phillips over to the Democracy. The transfer cannot be made, for several reasons; first, because Phillips wouldn't suit the company, and the company would therefore kick him out if he tried to get *in*; secondly, he *does* suit where he is, and would please *nobody* by leaving; and, fairdly, the Republican party would be deprived of its most far-reaching leader, because Phillips, radical as he is, always shapes his course in exact proportion to his ability to drag that party after him.

The *Sentinel* used to boast of its old-line Clay Whiggery, and hooted at Abolitionism. When Clay passed away, such fanatics as Phillips rose to the surface, and, strange as it seemed, our neighbor, though occasionally halting and grumbling, bowed down to Phillips' ebony idol, and shouted as loud as the loudest for "universal emancipation." Now the editor would have the gullible believe that he is opposed to Negro Suffrage, but Phillips has cracked his whip, and we predict that before a twelve-month, the *Sentinel* will *openly* and *squarely* advocate what it pretends now to denounce Phillips for advocating. There is no mistaking the similitude between Phillips and our neighbor. They are as like as two peas—the only difference being that the one is a trifle *earlier* than the other.

Hang on to Phillips, neighbor! He is your only hope. Old hatred toward Democrats won't allow you to follow your once particular friend and patron, Seward, into the ranks of Johnsonism, and there is therefore but one place left open to you—Phillips' Negro Suffrage Bureau Drawer!

☞John W. Forney, Secretary to the United States Senate, and editor of those two leading Republican journals, the Philadelphia *Press* and Washington *Chronicle*, in a recent speech at Lebanon announcing himself as a candidate for the U. S. Senate, *declared unqualifiedly in favor of Negro Suffrage!* When such men as Forney thus lead, they mean of course that their party shall follow them.

White men of Pennsylvania—Soldiers who fought for the Union, and not for the negro—will you, can you, support a party thus led? Vote for Clymer, and you will vote *against* Negro Suffrage and Negro Equality; vote for Geary, and you will vote *for* both. Have you stomachs for so *black* a dose?

☞The *Adams Sentinel* still has Geary's name at its mast-head, and advocates his election, and yet the editor enjoys a lucrative office at the hands of an Administration which Geary's election would be claimed as *condemning!* There's gratitude for you!

Our neighbor must not complain if the Presidential ax beheads him along with thousands of other followers of Thad. Stevens and Wendell Phillips. Severe cases require severe remedies—and we believe President Johnson the very man to apply them.

Geary at York.—Gen. Geary visited York on Thursday evening week, and being serenaded, the *Gazette* says, made a low, vulgar speech, denouncing the Democratic and Conservative soldiers who refuse to vote for him and the Disunion party he represents as "Hessians." From his speech we should take him to be without ability, and, worse still, void of the cultivation of a gentleman and soldier. He was very abusive of his political opponents generally.

☞Mr. Throckmorton, the conservative candidate for Governor in Texas, has been elected by an immense majority. The radicals in that State were in favor of negro suffrage.

THE DISFRANCHISEMENT ACT.

In speaking of the recent decision of the Supreme Court of Pennsylvania nullifying the act of Congress and of the Legislature, which undertook to disfranchise deserters from the military service and citizens who failed to report when drafted, at the pleasure of election officers and upon the mere record from a provost marshal's office—without trial for or conviction of desertion—the Chambersburg *Repository* (radical Republican) says:

"Viewed in any aspect that can be presented, we must accept the conclusion that the practical decision is that deserters cannot be disfranchised or punished.

"It is true that we have an act of the last Legislature imposing penalties upon election officers for accepting such votes, and also upon deserters for offering their votes; and that law, being as yet unquestioned judicially, is the law of the State; but the recent decision of the court declares in advance, that the act of the State will be set aside as soon as the Supreme Court can get a chance to do so."

It would, remarks a cotemporary, be strange, indeed, if, when the Supreme Court has decided that the vote of a citizen, whose name appears on the list of a provost marshal as a "deserter," cannot lawfully be rejected by an election board, that the same act of the Legislature—thus practically set aside—could be used to punish an election officer for receiving for a citizen for offering such vote. It being decided that every citizen qualified under the election laws shall be allowed to vote, notwithstanding that his name appears on a list of deserters or non-reporting conscripts, it is sufficiently evident that the penalty clause of the act—being a mere corrollary—falls with the fall of the disfranchising clause. There being no crime in voting and none in receiving the vote, there can of course be no penalty. It needs no further action of the Supreme Court to establish this fact.

STILL THEY COME.

The Selinsgrove *Post* informs us that a large meeting was held in Beaver, on the 5th ult., by the friends of President Johnson in the Republican party, at which Hon. Archibald Robinson (a life long Whig and "Republican") presided, and Major Charles H. Shriner, of Union county, delivered a lengthy and able address. The meeting adopted resolutions endorsing President Johnson and complimenting Senator Cowan. Major Shriner, who spoke at the meeting, is the same who made speeches for Curtin, in 1864, and who ran as the "Republican" candidate for Senator in the Lycoming, Union and Snyder district in 1864.

☞The Democracy of Green county appear to be fully awake upon the issues of this campaign. Meetings are being held in every part of the county, which are attended by large crowds of all parties, and addressed by men of ability. J. A. J. Buchanan, Esq., for years past the leading Republican speaker of that county, is upon the stump in support of the Johnson policy of reconstruction, and pronounces the most withering exposures of the hypocrisy and corruption of the Radicals in Congress.

Address to the Democracy.—The Democratic members of Congress have united in approval of the call for a National Union Convention, to be held in Philadelphia on the 14th of August. They recommend that, "wise, moderate and conservative men" be elected in every Congressional district, "to the end that all the States shall at once be restored to their practical relations to the Union, the Constitution be maintained, and peace bless the whole country."

☞Hiester Clymer declared the war for the Union an unholy and an unjust crusade on the personal rights and local institutions of the people of the South.—*Republican paper.*

☞The above is a fair specimen of the mode in which our political opponents are conducting the campaign.—Knowing they can find nothing in Mr. Clymer's personal character to make party capital out of, they have set to work at deliberately distorting and falsifying his political record. The sentiment above put into his mouth, we pronounce untrue from beginning to end.

☞Soldiers everywhere are holding meetings and denouncing the Hartranft Convention, held at Pittsburgh, as having been nothing more than a "trick" to lead Democratic soldiers into the disunion ranks. The "true boys in blue" do not recognize such proceedings, but go for the preservation of the Union, and the repudiation of such men as Stevens, Sumner & Co., and will show the negro worshippers when the proper time arrives for whom their votes will be cast. So the work goes bravely on.

☞The frantic vehemence with which the Radical journals denounce and decry the Conservative call for a National Convention, proves that it touches their party more nearly than we had reason to hope. Their daily outpouring of wrathful denunciation since the call, would be quite needless, if they did not consider the movement fraught with danger to their party.

☞John W. Geary's greatest exploit during the war was to capture an old cannon which had been planted years before on a sidewalk in Harper's Ferry as a post, the mouth up, and was a receptacle for chews of tobacco and cigar stumps. That is the reason why he is styled "the hero of the Harper's Ferry Spittoon." It is an incident which Greeley should not have omitted in his history of the war.

☞Gov. Swann, of Maryland, declines calling an extra session of the Legislature to act upon the Constitutional Amendment. So do the Governors of Indiana, Illinois and Iowa—which effectually blocks the game of the Radicals, at least for the present, and probably for all time to come.

☞Missouri has already selected delegates to the National Johnson Convention, to be held in Philadelphia on the 14th of August.

☞We are indebted to Hon. A. J. Glossbrenner and Hon. A. H. Coffroth, of Pa., and Hon. Charles Sitgraves, of N. J., for Congressional favors.

☞The charge against General Kilpatrick, who was not long since appointed Minister to Chili, is that he has behaved with the greatest disrespect towards those to whom he was sent, by introducing into Chilian society a woman of notoriously bad repute.

AWFUL FIRE IN MAINE.

One of the most destructive fires that ever occurred in this country, visited Portland, Maine, on Wednesday last.—*Two thousand* buildings were destroyed, the loss being estimated at *ten millions of dollars*. It swept over a space one and a half miles long, by a quarter of a mile in width, covering half the city, and that half including nearly all the business portion. All the banks, all the newspaper offices, all the jewelry establishments, all the wholesale dry goods stores, several churches, and the telegraph offices, are gone. Thousands of families are houseless. Fifty buildings were blown up to check the flames. The fire commenced in a boot shop, (how is not stated,) and the wind blowing a gale at the time, all efforts to stop it until it burnt itself out proved unavailing. The cities of Boston and New York are sending large quantities of provisions for the sufferers, with thousands of tents for their shelter.

THE FOURTH AT PHILADELPHIA.

Wednesday was a great gala day in Philadelphia, having been the occasion of the reception of the Battle-flags used by the Pennsylvania regiments in the war, that they may be preserved in the State archives at Harrisburg. The procession numbered ten thousand, being made up mainly of surviving soldiers, with orphans, firemen, &c. Gen. Hancock was in command; Gen. Meade presented the flags, and Gov. Curtin received them. The ceremonies were of a very imposing nature, and will long be remembered by all participating.

For the Gettysburg Compiler,

SUPPORT THE RIGHT!

Let the conscientious voter remember that the party which was so forward to proclaim opposition to the Government as the vilest treason but two short years ago, is now the most bitter in its denunciations of a President whom they themselves elected to his present position, whilst its representatives in Congress are using all their efforts to thwart his endeavors to restore our suffering country to its pristine glory.

Let them look at almost all the bills that were passed during the session, and see for themselves how deeply they are tinged with party spirit and love for the negro, and then decide, each for himself, whether the party by whom they were made, is the party which will restore our Union to its former glory, or whether the party which now upholds the President is the one to give us peace and happiness, and make our Union once more the pride of the American citizen, and then cast his vote accordingly.

A LOVER OF HIS COUNTRY.

Communicated.

H. J. STAHLE, ESQ.—Sir: Permit me, through the columns of your excellent paper, to say a few words to the candidates now seeking nominations at the hands of the next Democratic County Convention, to be held on the thirtieth of this month.

"Remember, gentlemen, you have announced yourselves as candidates "subject to the decision of the Democratic County Convention." And the man who submits his name to a party Convention with the promise to abide by its decision, and fails to receive its nomination, opposes, or is lukewarm in regard to the election of his successful competitor, shows a faithless spirit, and does not deserve, in any degree, the confidence of his fellow men.—I do not believe for a moment that any such person now seeks a nomination at the hands of the Democracy of Adams county; but in the past we have had some examples of infidelity in this regard, and it is this fact that induces me to talk in this strain. Had the office-seekers in the Democratic party always proven honorable and faithful, our majority in this county would long ago have reached five hundred votes. Nothing but dissension, caused by disappointed office-seekers, has kept our majority from reaching that figure.

It is true that Conventions sometimes make mistakes, but those who are thus aggrieved should appeal to a subsequent Convention for justice, rather than take the matter in their own hands, which will ultimately lead to their political ruin. The coming election is of great importance to the Democracy of Adams county, and it is necessary that we be a unit. And in order that this may be accomplished, let all feel an interest in the matter; attend your Delegate Elections; there is the place to urge the claims of your favorite candidate. It is invariably the case in Butler township, (and I presume in many other townships,) that but a few persons attend the Delegate Elections, and those who do not attend, are always the loudest in finding fault with the ticket, and the doings of the Convention. It should be a point to elect the most intelligent and upright men as Delegates in the several districts to the Convention. Such men are not likely to do injustice to any one, or disobey the voice of the people. As to the mode of electioneering, it should be entirely free from personalities, and as but one person can receive the nomination to the office to which he aspires, candidates should remember that if nominated it is important that they have the good will of their defeated competitors. We cannot afford to have bickerings and heart-burnings.

BUTLER.

WAR COMMENCED IN EUROPE.

By the arrival of the steamships Bremen, City of Boston and Cuba we have advices from Europe to the 24th ult.—War has been formally declared by Prussia and Italy, and all the armies are now in motion. The Prussians entered Saxony on the 15th, and the King of Saxony quitted Dresden to join the army, which, it was reported, had formed a junction with the Austrian forces in Bohemia.

The Italian army crossed the Mincio on the 23rd ult., without opposition. The Prussians left a small garrison at Dresden and immediately advanced on Bohemia. A slight collision had occurred between the Austrians and Prussians in Silesia, when the former retired.

☞U. S. Senator James H. Lane, of Kansas, committed suicide at Leavenworth, Kansas, on Sunday evening week, by shooting himself through the head.

— Senator Lane is recovering.

Dismissed.—Captain Philip Reitzel Forney, 14th United States Infantry, (a son of Colonel John W. Forney,) was recently tried by court-martial at San Francisco, California, and dismissed the service. The charges of which Captain Forney was found guilty were disobedience of orders and conduct unbecoming an officer and a gentleman. The sentence of the court has been confirmed by the commanding general.—*National Intelligencer.*

☞The papers at Madison, the capital of Wisconsin, announce that President Johnson and Secretary Seward, after the adjournment of Congress, will visit that city in company with Senator Doolittle and ex-Gov. Randall, in time to be present at a Wisconsin State Convention of National Union men. It has already been announced that the President has accepted an invitation to be present at the laying of the corner stone of the Douglas monument at Chicago.

☞Another "loyal" fellow, George N. Carleton, has left the Government Treasury minus about half a million dollars, as special agent and acting surveyor of customs at Memphis, Tennessee.

TOWN AND COUNTY AFFAIRS.

☞The COMPILER will be furnished for the campaign—from this time until after the October election—at the low price of *Fifty Cents!* Send in the names and the money—singly or by clubs. There is an interesting campaign ahead, and no Democrat or Conservative should fail to be posted when the information can be secured for the small sum of half a dollar.

THE FOURTH was not characterized here by any general celebration, but business was suspended, and most of our people spent the day pic-nicing in the groves and along the streams in the neighborhood. In this quiet way much pleasure was had.

HOT.—We had several scorching days last week. On Friday the mercury ran up to 98 in the shade, and on Saturday to 99—the hottest weather experienced here during several years.

VISITORS.—It is expected that Mr. Rothermal, the artist, will visit Gettysburg on Wednesday next, accompanied by the Committee appointed by the last Legislature to procure a painting of the Battle-field. Gen. Meade and other military gentlemen will be here at the same time.

PRESENT.—The members of the New Oxford German Reformed charge have presented their much esteemed pastor, Rev. W. F. P. Davis, with a handsome new buggy and harness. This speaks well for the relations existing between pastor and people.

BARN BURNT.—Before daylight on the morning of the 4th of July, the Barn of Rev. Joseph Sherfy, on the Emmitsburg road, two miles from this place, was discovered to be on fire. The attention of the family was at once directed to getting out the horses and cattle, which was accomplished, but with much difficulty—Raphael Sherfy sustaining some injury from the intense heat. The barn was totally destroyed, with agricultural implements and harness. The loss we suppose to be fully $1,500, which Mr. Sherfy is ill able to bear. During the battle a good barn was burnt for him on the same spot, and the one destroyed on Wednesday morning had been but a year erected. How the fire originated is unknown, but it is supposed that a party had gone into the barn for the purpose of stealing chickens, and that in striking a light with a match the barn accidentally caught. We cannot think that it was done by design, as Mr. Sherfy is one of the most inoffensive citizens. There was no insurance, Mr. S. deferring it until he should have the means to spare for the purpose. He has the sympathies of the entire community.

ACCIDENT AT NEW OXFORD.—On the Fourth, a small boy, son of Mr. Abraham Sheely, of New Oxford, met with quite a severe and painful accident. He and a number of other boys were celebrating the day by firing pistols, shooting crackers, &c., and whilst in the act of cocking a pistol, the hammer slipped, firing the load, which carried away the flesh of the index finger of the left hand, and severely burning the hand with powder. The wound was dressed by Dr. W. J. McClure, of that place, and is doing as well as could be expected.

INDIAN RELIC.—We have on our office table a very interesting Indian relic, in the shape of a well-wrought sand stone, fine and hard, nearly eleven inches long, and four inches wide. From the sharpness and smoothness of the wider end, we infer that it was used as an ax—whilst the other end seems purposely to have been left rough, as though designed for pounding purposes. It was found, a few days ago, by John A. Myers, at the foot of Culp's Hill, and the wonder is that it so long escaped observation. Tradition fixes the vicinity where it was picked up as the location of an Indian village, more than a century ago.

NEW METHOD OF CALCULATION.—Prof. J. B. Andrews, of Philadelphia, is visiting our town for the purpose of teaching his new, short and simple methods of Calculation, including short methods of Addition, Subtraction, Multiplication, and Division, and their application to Interest, Percentage, Discount, Banking, and Partial Payments.

We have partially examined Prof. Andrews' concise and beautiful Methods of Calculation, and unhesitatingly pronounce them superior to anything of the kind we have heretofore seen. We take great pleasure, therefore, in recommending him to any who may need his professional service.

We are authorized to say that the Professor gives instruction to Ladies and Teachers at a reduced fee, and *to wounded soldiers free of charge*. His rooms are at Mrs. Ziegler's, on Middle street, where he may be found at any time when not professionally engaged.

NEW OXFORD.—We learn that the spirit of improvement is now quite rife in the town of New Oxford, on the Railroad, ten miles east of this. New buildings are being erected by J. S. Gitt, George Sherman, John Byers, Mr. Hersh, Peter Feiser, W. D. Himes, Mr. Stock, A. F. Gitt, and Mr. Barnitz, and similar improvements are contemplated by Mr. Zouck, Mr. Beck, and others. The place has four churches, five dry goods stores, two hotels, two warehouses, with all kinds of mechanic shops, several physicians, &c. Two machine shops are about being erected.

FIRE.—On Tuesday morning, the dwelling of Mrs. Jacob Peffer, in Petersburg, was injured by fire to the extent of about $70—but which is covered by insurance in the Adams County Company.

STOREKEEPERS, PLEASE READ.—*Best Fruit Jars* can be had 15 per cent. below lowest Philadelphia wholesale prices, from WM. BLAIR & SON, "South End," Carlisle, Pa.

Best Coal Oil always on hand, also a large quantity of Salt. Please call and learn prices.

☞The attention of our farmer friends is called to a communication on "Manures," on our first page. The advice it contains ought to be worth more to each than ten times the cost of the COMPILER.

☞It is proposed to dedicate the Antietam National Cemetery on the 17th of September next, that day being the anniversary of the great battle.

FREAK OF LIGHTNING.—During the thunder storm on Wednesday evening week, the lightning struck the house of Robert S. Paxton, on Baltimore street.—The current passed down the spouting until it reached the spouting of the adjoining house, to which it then changed, and followed down to a trough below, which it shattered to pieces. No injury was done to the buildings, but Mrs. Paxton was so severely stunned as to be insensible for a short time, and other inmates were considerably shocked.

SOLDIERS' MEETING.

An informal meeting of soldiers favorable to the election of Clymer for Governor, numbering about 150 delegates from various parts of the State, was held at Harrisburg on Thursday week. The meeting resolved to issue a call for a mass State Convention of soldiers favorable to President Johnson's policy and the election of Clymer, on the 1st of next August, in Harrisburg. Resolutions were adopted favoring the Union policy of President Johnson, eulogizing the soldiers and sailors of the Union army, and expressing a firm determination to use all honorable efforts to secure the election of Hiester Clymer for Governor.

Speeches were made by General McCandles, of Philadelphia; General Davis, of Bucks; Colonel Ent, of Columbia; Adjutant Becker, of Berks, and others.

FORNEY, THE NEGRO CHAMPION.

The voters of Pennsylvania will bear in mind that John W. Forney has announced himself a candidate for United States Senator, to take Senator Cowan's place, whose term will expire in 1867. In announcing himself Forney declares his purpose, if elected, "to confer *impartial suffrage* upon American citizens of whatever creed, *color* or nativity." The people must see to it, therefore, that no State Senator or even Assemblyman is elected favorable to Forney or the party with which he affiliates. For the same reason, John W. Geary, who was Forney's ardent choice for Governor, must be defeated. It is important, also, that no member of Congress should be elected who is tinctured with the negro mania. Negro suffrage is clearly the issue now before the country, and unless the people repudiate it through the candidates, they will never have an opportunity to vote upon the question at all. The leaders of the so-called Republican party do not intend to ever allow a popular vote to be taken upon the question of negro suffrage. Their design is to secure it through the legerdemain of Federal and State legislation and clinch it by means of a subsidized court, presided over by a judge who is a candidate for the presidency, and consequently vitally interested in the addition of so vast a number of black voters to that party. Voters of Pennsylvania, there is danger ahead! Look well to your interests and rights!—*Patriot & Union.*

WHERE IS PRESTON KING?

A writer in the Philadelphia *Ledger* answers in this wise:

It is not generally known o the public that this man was for a time an incubus at the White House, and he was made the Collector at New York Harbor to get him out of the way. But few understood why he committed suicide; but there are those who have an idea why he committed the act. It was, no doubt, his conscience It was Preston King who kept Miss Surratt from seeing the President on the morning of the execution of her mother.

The President knew nothing of her being at his door-steps, in agonizing tears, to ask a stay of the law for one short day. Old King kept the President from knowing what was going on, and, after the execution, it becoming so apparent that the condemned was innocent of complicity with the real murderers, that it harrowed up his soul. In fact, he had no peace after her death; and becoming desperate under the lash of conscience he committed suicide. Have the others who hounded this poor woman on to the gallows no conscience? We believe they have, and know they must suffer bitter stings.

HOW TO GET UP REFRESHED.

As almost every one, in this heated weather, feels more or less dull on getting up of mornings, we publish the following advice, which we find in an exchange:

"Every person who toils daily at any kind of labor, requiring great physical or mental exertion, should be extremely careful to practice a regular system of ablution at the close of each day's work. Sometimes a person may be so completely exhausted as to render this anything but an inviting performance; yet by its omission a great deal of the refreshment which the hours of repose are designed to impart, is lost. To be cleanly is a strictly religious duty, and is absolutely essential to sound and refreshing slumber; hence the labor of keeping one's person clean is amply repaid by the elasticity which follows from nightly ablutions before retiring. Heed this advice, and the reader will sleep soundly; disregard it—go to bed unwashed, and you will rise in the morning unrefreshed, with feelings of lassitude which the exertions of the day will hardly be able to remove."

☞The Democratic press of the State unanimously and strongly condemn Gov Curtin's design of calling an extra session of the Legislature, to act upon the Rump amendments. The people, too, are murmuring at the cost of an extra session, (two hundred thousand dollars, or more,) which will have to be paid by them in taxes. These complaints are well grounded. Another source of complaint consists in the fact that the people are not to be consulted in regard to their views upon the subject. The Governor is being bitterly reproached for taking "snap judgment" upon them in so infamous a manner.—*Patriot & Union.*

☞We shall probably, says the Memphis *Ledger*, soon have an attempt made to change the flag of the United States, that it may correspond with the legislation of Congress and the radical doctrines. Why has not Thad. Stevens already introduced a proposition to add a black star and a dusky stripe?

☞Clymer and Geary attended the Fair at Allentown last week. A Reception Chair was being voted for by their respective friends. Clymer deposited a vote for each candidate. Geary deposited three votes for himself. This little incident marks the difference between the men.

☞Major-General Anthony Kimmel, who, whilst a Senator in our State Legislature, so warmly advocated the Union cause, has instituted suit in our County Court against John W. Gilbert, George W. Dudderar, and Henry Baker, late registers, for refusing, upon insufficient grounds, to enter him upon their lists as a duly qualified voter, and has laid his damages at $30,000.—*Frederick (Md.) Union.*

☞It is again reported that there are to be changes in the Cabinet. At least three members of the Cabinet, it is said, are to go out. Secretary Harlan and Attorney General Speed are mentioned as two of these.

☞All the local elections in southern Illinois show Democratic gains of from fifty to one hundred per cent. over the last vote.

☞In Ohio Hon. Geo. H. Pendleton, late Democratic candidate for Vice President, will run for Congress.

☞Lindsley, the "Reverend" monster who whipped his child to death, has escaped to Canada.

☞Several murders by negroes are reported in the Georgia papers.

The Greatest Discovery of the Age.

FARMERS, FAMILIES, AND OTHERS can purchase no remedy equal to Dr. Tobias' Venetian Liniment for dysentery, colic, croup, chronic rheumatism, sore throats, toothache, seasickness, cuts, burns, swellings, bruises, old sores, headache, mosquito bites, pains in the limbs, chest, back, &c. If it does not give relief the money will be refunded. All that is asked is a trial, and use it according to the directions.

DR. TOBIAS.—Dear Sir: I have used your Venetian Liniment in my family for a number of years, and believe it to be the best article for what it is recommended that I have ever used. For sudden attack of croup it is invaluable. I have no hesitation in recommending it for all the uses it professes to cure. I have sold it for many years, and it gives entire satisfaction.

Purify the Blood.

If the blood be pure the body which is formed from and by the blood cannot be diseased. But if there be in any part of the body an affection, such as a boil or ulcer, even a bruise, the blood circulating through that part takes up impure matter from the local affection and carries it into the general system. This is the cause often of sudden death to persons of full habit afflicted with boils and ulcers, and who use no medicine; the matter gets into the circulating system and chokes up the fine blood vessels which supply the brain with vitality, and life ceases as if

Radway's Regulating Pills.

Let no one forget the peculiar value of these pills as a preventive of disease, as well as a remedy for complaints already existing. An ounce of prevention is better than a pound of cure," and a dose of Radway's Pills taken once or twice a week will not only keep the secretions in such a healthy condition that prevailing disorders may be set at defiance, but they will cure the worst cases of dyspepsia, indigestion, costiveness, &c., beyond a peradventure. It only requires from one to three pills to restore a gentle movement of the bowels, while from four to six produce a brisk and thorough purge. With most other pills you have griping pains, nausea, sickness, and tenesmus, because they fall to expel with the feces the bile and other diseased humors. Dr. Radway's Pills leave no such mischief-working remains circulating in the system, but purge out all that may be an obstacle in the way of a restoration to health. Hence their operation is accompanied by no pain. They do their work perfectly but unalarmingly. They do not debilitate nor prostrate. They purify and strengthen. They are prepared of choice and costly extracts from medicinal plants, roots, herbs, gums, &c., yet they are sold for the same price, (25 cents a box,) as are pills for inferior articles. In using them you do not lose your time with calomel, mercury or antimony, yet you get rid of your biliousness with ease and promptitude; your heart, your kidneys, your nerves, your stomach are relieved from disorder, and you are "regulated" into perfect health. Radway's Regulating Pills are sold by Druggists.

Ayer's Ague Cure,

FOR THE SPEEDY CURE OF

Intermittent Fever, or Fever and Ague; Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originating in biliary derangement, caused by the Malaria of miasmatic countries.

Fever and Ague is not the only consequence of miasmatic poison. A great variety of disorders arise from its irritation, in malarious districts, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spleen, Hysterics, Pain in the Bowels, Colic, Paralysis, and Derangement of the stomach, all of which, when originating in this cause put on the intermittent type, or become periodical. This "CURE" expels the poison from the blood, and thus cures them all alike. It is not only the most effectual remedy ever discovered for this class of complaints, but it is the cheapest and moreover is perfectly safe. No harm can arise from its use, and the patient when cured is left in a healthy state, he had never had the disease. Can this be said of any other cure for Chills and Fever? It is true of this, and its importance to those afflicted with the complaint cannot be over estimated. So sure is it to cure the Fever and Ague, that it may be truthfully said to be a certain remedy. One Dealer complains that it is not a good medicine to sell, because one bottle cures a whole neighborhood.

MOWERS & REAPERS.

THE undersigned is still Agent for the sale of MOWING AND REAPING MACHINES—both combined and single Mowers.

These machines can be used as Self-Rakers or Hand Rakers, as farmers may wish. They are made with *two* cutter bars, one for cutting grain with sickle knife—cutting five feet nine inches wide—and extra bar, with two knives, for grass,—cutting four feet six inches wide, having iron or wooden frames as desired.—They have two driving wheels and flexible finger bar.

The company building these machines have secured by lease and purchase, the control of all the desirable and standard patents now in use, among which are the

OHIO AND BUCKEYE PATENTS,

to which we direct special attention. In compactness, lightness of draft, excellence of workmanship and finish, combined with great strength and adaptation to all kinds of work, they will compete with, and we believe, surpass, any other machine now offered to the public.

Farmers would do well to examine these machines before purchasing any other. They will be sold as cheap as any other first-class machine now manufactured, and we warrant them to give entire satisfaction or no sale.

☞ Extras always kept on hand. Specimen machines can be seen by calling on the Agent, residing on the Harrisburg road, two miles north-east of Gettysburg.

☞A Republican newspaper, published at Middletown, N. J., has the following paragraph:

A. J. Burt, Esq., has been removed as Postmaster at Bellvalle, in this county, and Mr. Mackeral appointed in his place. The cause of the removal is said to be "just this, and nothing more"! A subscriber to the New York *World* wished to discontinue his subscription to that paper. Mr. Burt, in notifying the editor of that journal, Mr. Marble, of the fact, naively added, "and a sensible man at that." This aroused the ire of the *World* man to such an extent as to require of the Postmaster the alternative of an apology or his removal. We presume no apology was made, as the removal followed soon after.

We never heard of a better cause for removing a Postmaster than that here assigned, except, perhaps, stealing Democratic newspapers from the mails. A few more examples of this kind would rebuke and put an end to the insolence of these self-constituted censors of the press.

☞There is a passage in Sheridan's report to the Obstruction Committee worthy the special attention of the blatant politicians who think that legislation for the negro should be the exclusive business of Congress. Replying to a question as to the capacity of the negro, he says among other things: "*I believe the best thing* that Congress or the States can do is to legislate as little as possible in reference to the colored man, beyond giving him security in his property and person."

☞Mr. Horace Greeley is not at all satisfied with the proceedings in the Jefferson Davis case, and he expresses his dissatisfaction very forcibly. He says:—"It has a very bad look when a man officially charged with the vilest crime known to men is not even indicted therefor, but kept in close jail over a year without knowing on what charge; and when at length an indictment is found against him for something totally different he can't be tried on that, but is still held in close jail without being allowed a chance to face his accusers. We should not like this sort of treatment, and we mean to insist on fair play for friends and enemies alike."

☞The annual income of Wendell Phillips is sixty thousand dollars. The Cleveland *Plaindealer* remarks that the statement should go with it, which will hardly be denied, that Phillips inherited his wealth from ancestors who accumulated immense fortunes by the manufacture of and traffic in New England rum, and by the African slave trade.

Barron's Safety Lamps,

AND
LIG-RO-INE (Red) FLUID.
PATENTED.

THIS Lamp apparently burns *without anything to feed it.* It has, however, a material which absorbs the liquid and gives it to the flame, partly from the wick, and partly in the form of gas, but so as to produce perfect combustion, and is very economical and safe.

It is used without a chimney, and perfectly trimmed, *does not smoke or smell; it is therefore* especially adapted to the purposes of a "run about," night, nurse, shop or hotel lamp, or lantern. The cost of broken chimneys, alone, will more than pay the cost of this lamp. Every family needs one or more.

THE HUBBARD.

THE undersigned are agents for the sale of Hubbard's celebrated Mowers and Reapers, both combined and single Mowers and Self-Rakers. Farmers would do well to examine our specimen machines before purchasing any other. We warrant satisfaction or no sale. The advantages of the Hubbard as a Mower, are its light draft, great strength, simplicity and durability, freedom from all side draft, no weight on the horses' necks, and is easy work for two small horses. The main features and advantages of the Hubbard as a Mower are retained in the Reaper, and can be changed from a Mower to a Reaper by changing three bolts and two shoe pins. The raker, with one easy natural motion, brings the grain towards him and deposits it in a compact sheaf in the rear of the machine, leaving ample room for the machine to pass next time around. The Self-Rake has no equal; it is a reel and a rake combined. The driver by use of a lever regulates the size of the bundle, and it can be worked in all kinds of grain from the shortest oats to the tallest rye; is very simple in construction, and less liable to get out of repair than any other Rake. They are made with two cutter bars, one for cutting grain with sickle knife, cutting five feet nine inches wide, and an extra bar, with two knives, for grass, cutting four feet eight inches wide. Extras always kept on hand. Specimen machines can be seen by calling on the agents, residing near Gulden's Station. Post-office address, Granite Hill, Pa.

EQUAL to any in the market and superior to many, in larger bottles, and at old prices.

Wholesale agents for Baltimore,
BURROUGH BROS.,
Wholesale Druggists.

LIST.—Lemon, Orange, Vanilla, Rose, Peach, Nutmeg, Celery, Allspice, Cloves, Ginger, Birch, Cinnamon, Apple, Mulberry, Pine Apple, Banana, Mace, Raspberry, Pear, Pepper, Parsley, Strawberry, Bitter Almond, and Savory spices.

The great difficulty heretofore experienced in procuring true Flavoring Extracts, has induced the proprietor *to spare no pains or expense* in giving to the public an article which will be found true to its name, and which will in no instance be a source of disappointment.

It will be observed that our extract of Lemon and Orange is a prepared extract from the Peel, which any one may be convinced of by merely smelling them.

The price of Vanilla Beans, too, has caused more useless Extract of Vanilla to be manufactured and sold than any other essence; being either made from Tonka Beans, or some other fictitious compound. In our Extract we WILL GUARANTEE A PURE ARTICLE! made from the true Bean, without any foreign substance whatever.

Bell's Worm Syrup.

THE MOST INNOCENT, PLEASANT AND EFFICIENT REMEDY IN USE.—A REMEDY PERFECT IN ITSELF.—*No Castor Oil to be Taken.*—In this Preparation we have included such remedies only as have been tried for years and are known to possess powerful anthelmintic virtues, combined with mild aperients, pleasant aromatics and sugar. Anthelmintics of themselves cannot perform their peculiar functions or have the desired effect, unless the bowels are kept moderately open. To produce this, gentle purgatives are necessary and such only ought to be used that cannot interfere with the anthelmintic employed. The advantages we claim for this Syrup are:

1st. Its power of DESTROYING AND EXPELLING WORMS!

2d. Its mild aperient effect upon the bowels.

3d. Its pleasant taste and odor are advantages possessed or claimed by very few Vermifuges.

4th. Its harmless influence upon the system, consequently no injurious effects will result from its use should the patient have *no Worms*, but an apparent disease, arising from some other unknown cause, which is frequently the case.

The constituents of this Syrup and its effects are known to many Physicians, who are now using it in their practice to a large extent.

Price 25 cents a bottle.

The Greatest Liniment in Use.

BELL'S WHITE OIL!—*The Blandest, Cleanest, most Penetrating and most Economical Liniment in Use.*—A powerful Oleaginus Compound for the Speedy Cure of Rheumatism, Strains, Sprains, Wounds, Numbness of the Limbs, Frosted Feet and Hands, Spavin, Saddle Galls, Poll Evil, Ring Bone, Bruises, Swellings of all kind, and in fact every disease for which an Embrocation is applicable, either in Man or Beast. Price 25 cents a bottle.—This preparation, which is original with us, will be found to be one of the nicest and at the same time one of the most reliable applications extant.

Having been employed very extensively since its introduction and feeling satisfied of its remedial properties, we recommend it with the utmost confidence, knowing that no one will be disappointed in its use. It is, as its name implies, a white liniment of the consistency of cream, containing nothing offensive, but, on the contrary, will be found more *pleasant than otherwise.*

Bell's Alterative,

OR CONDITION POWDERS!
FOR HORSES, CATTLE & SWINE.
25 cents a paper, or five papers for $1.

The immense sale of these Powders during the short period they have been before the public, is a sufficient guarantee of their great popularity, and the decided benefits derived from their use.

They are confidently recommended not only as a preventive, but as a complete cure for all diseases incident to the HORSE, COW or HOG, as Loss of Appetite, Coughs, Heaves, Yellow Water, Distemper, Glanders, &c., &c.

By their use the Horse's Appetite is improved, all derangements of the digestive organs corrected, softening the skin, and giving to the coat a sleek and shining appearance, and may be used with perfect safety at all times, as it contains no ingredients which can injure a horse, whether sick or well.

They cleanse the breathing apparatus by ejecting from the air cells coagulated matter, or that formation which so severely clogs them, causing a tightness in breathing, and by their peculiar action on that part, they cause the mucus membrane to resume its natural dimensions, thus equalizing the circulation of the blood and restoring the distended vessels to their natural size.

For fattening cattle they are invaluable, also possessing peculiar properties in increasing the quantity of milk in Cows, thereby giving them an importance and value which should place them within the hands of all interested.

All diseases to which the Hog is subject, as Coughs, Ulcers in the Lungs and Liver, and as a general purifier of the blood we guarantee their efficacy if once fairly tried.

CHOLERA PREVENTIVE!

I. X. 1866. I.
THE GREAT ZINGARI BITTERS.

THIS WONDERFUL REMEDY was discovered and introduced about twenty years ago by Dr. S. Cheopsus, an eminent Egyptian physician.

He had long seen and felt the want of some remedy which would strike at the root of disease, and so prevent much of the suffering which the human family was then compelled to endure.

The great question was presented to his mind every day in vivid colors as he moved among the sick and dying, and observed the inefficiency of nearly all the remedies then in use. Thus he was lead to think and experiment; and after ten years of study and labor, he presented to his fellow man the wonderful Zingari Bitters. The effect of this preparation in the prevention and cure of disease, was so marvellous and astonishing, that the most flattering marks of royal favor were bestowed upon him who discovered it. His name was placed upon the Roll of Nobles, and a gold medal with the following inscription—Dr. S. Cheopsus, the Public Benefactor—was presented to him by the Viceroy.

The preparation has been used in several epidemics of cholera, both as a preventive and curative measure, and with such great success that it has been introduced into nearly all the general hospitals of the old world.

The old saying that an ounce of prevention is worth a pound of cure, applies with marvellous force to cholera, and therefore any remedy that will protect us against this terrible disease should be freely and persistently used.

All pathologists now agree that the cholera poison acts on the system through the blood, and that any combination which acts on the excretory organs, and keeps them in working order, must prevent a sufficient accumulation of the poison to exert its terrible effects on the organism. This is true not only of cholera, but of nearly all other maladies, especially the *different forms of fevers.*

The Zingari Bitters is just such a remedy as the above conditions require. It acts on the organs of excretion and secretion, keeping up a perfect balance between them. This Bitters is composed entirely of roots and herbs, so nicely concocted that every organ is acted upon and put in tone. Its taste is pleasant and its effects prompt and lasting.

Numerous cases of the following diseases have been cured by it: Cholera, Diarrhœa, Typhoid and Typhus Fever, Fever, Ague, Nervous Debility, Anaemia, Female Irregularties, Dyspepsia, Flatulency, Colic, Scrofula, &c.

Price, one dollar per quart bottle.

TAKE NOTICE.

FARMERS AND DEALERS IN FERTILIZERS will please take notice that we have adopted the following Trade Mark to protect ourselves, and prevent those who use our RAW BONE SUPERPHOSPHATE from being deceived when purchasing manures.

We have been obliged to give this protection to our customers, in consequence of several parties having unlawfully used our distinctive name, viz: "Raw Bone," in offering their article to the public. This Trade Mark is adopted in addition to the title "Raw Bone," which is our exclusive property, and we caution all manufacturers from using it in future. We would state to the trade and consumers, that they will find it to their interest to see that the "Trade Mark" is upon every bag and barrel they purchase, as none other is genuine.

RAW BONE
Super Phosphate of Lime,
Manufactured by BAUGH & SONS,
No. 20 South Delaware Avenue,
PHILADELPHIA.

The great popularity of our article has been found sufficient inducement to certain imitators to manufacture and advertise "Raw Bone Phosphates," a name which originated with us, and is our own rightful property. We will state for the information of all, that we are the exclusive manufacturers of this article—the original and sole proprietors of it—having been manufactured by us for a period of twelve years. Also that it is covered by several letters patent, held only by ourselves.

We are now ready to supply it in large quantities—having made recent additions and improvements. Vessels drawing 16 feet of water can load directly from the wharves of the works, which are located at the foot of Morris Street, Delaware River. We call the attention of DEALERS to this great advantage.

The present indications are that we shall have a greatly increased demand over last spring and fall seasons, and we advise Farmers to send in their orders to their respective Dealers at an early day, that all may be supplied promptly.
